**DETAILED ACTION**

*Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The last claim 5 choice for NR4R5 is in error. The definition in claim 1, and in the specification as well, says "... a 3 to 7-membered ring". This has two rings. The traverse is unpersuasive. Applicants state that this can be viewed as one ring "in which the ring is substituted by alkylene (methylene) which is divalent and bridges...". There is no alkylene or any other divalent substituent listed in the claim or specification.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action.

---

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
